people from crime or
becoming a victim of
crime**

Children lead way with online safety

Bedfordshire Police has been working with a group of children from Barnold Academy to create a digital safety video. The children, who are members of the school's digital safety team, have been trained by police officers on how to create a video that raises awareness of online safety. The video, which is now available on the school's website, features the children talking about the dangers of online safety and how to stay safe. The children were given the opportunity to ask the police officers any questions they had about online safety. The police officers were impressed with the children's work and the message they have delivered.

26 schools receiving digital safety inputs for all students
