Every OPCC must be a champion for victims as per their statutory obligations.</p> <p>In order to further fulfil this commitment a Victim Needs Analysis (VNA) was carried out to help understand the needs and issues for individuals and communities across Bedfordshire. It has been five years since the last VNA was published in 2016. Given the duty to commission victim services that provide victims with the best support, it is absolutely vital that the OPCC has a well-rounded understanding of victims' needs and the issues that they face locally in comparison to the national context, and any key changes since the last VNA was released.</p> <p>I have attached a copy of the finalised Victim Needs Analysis document for your information</p>

2021/000326	03/09/2021	01/10/2021	03/09/2021	<p>I am conducting research for my master's degree around policing during the pandemic, specifically around the police's use of technology during this time. The aim of this research is to understand how the pandemic affected policing in the UK, by researching the police's use of digital technology and the public's opinion on the police during this time.</p> <p>I was hoping, if possible, to get your thoughts on the subject. I thought the best way to reach out and ask would be through a Freedom of Information request. Below are 6 questions on the subject:</p> <ol style="list-style-type: none"> 1. In what ways has your police force tried to still engage with the public despite the pandemic? 2. What are your opinions on the use of technology to report crimes? 3. Do you believe the police should wider their use of technology? For example, taking statements online or by phone? 	<p>Thank you for your email, however the information that you require is not held by this office and should be requested from Bedfordshire Police at: foi@Bedfordshire.pnn.Police.uk</p>	Closed
