1. Purpose

This document was developed to be compliant with the statutory requirements and guidance of the Freedom of Information Act 2000, the Police Reform and Social Responsibility Act 2011 and the Code of Recommended Practice for Local Authorities on Data Transparency 2011.

Police and Crime Commissioners were introduced in the Police Reform and Social Responsibility Act 2011 as directly elected Local Policing Bodies to hold their Police Force to account in the delivery of an effective and efficient policing service.

As the local policing body, the Police and Crime Commissioner and their Office are regarded as a public office.

Background

Legal Requirements

Police and Crime Commissioner Role and Responsibilities

The Police and Crime Commissioner for Bedfordshire took office on 13th May 2021. It is the Commissioner's job to ensure that there is an efficient and effective police force

for Bedfordshire and to make sure that the Chief Constable and Force are accountable to the public in carrying out their responsibilities and serving our communities.

The Commissioner engages with the public and communities in Bedfordshire and holds the Chief Constable to account for the delivery of policing, sets and updates a Police and Crime Plan, sets the Force budget and council tax precept, and appoints and, where necessary, dismisses the Chief Constable.

It might help the public to know that police operations are the responsibility of the Chief Constable and Force and therefore, information on individuals is more likely to be held by Bedfordshire Police Force. The Police and Crime Commissioner cannot influence any operational policing decisions.

The Freedom of Information Act 2000

The Freedom of Information Act 2000 (FOIA) provides rights of public access to information held by public authorities. The FOIA requires all public authorities to have a publication scheme.

The Elected Local Policing Bodies (Specified Information) Order 2011 of the Police Reform and Social Responsibility Act 2011 sets out statutory requirements for the publication of specific information by the Office of the Police and Crime Commissioner.

The Code of Recommended Practice for Local Authorities on Data Transparency 2011 sets out key principles for authorities to create greater transparency and enhance accountability through the publication of public data.

This Publication Scheme has been developed to be compliant with the statutory requirements and guidance of the Freedom of Information Act 2000, the Police Reform and Social Responsibility Act 2011 and the Code of Recommended Practice for Local Authorities on Data Transparency 2011.

Model Publication Scheme

The Office of the Police and Crime Commissioner for Bedfordshire has adopted the Model Publication Scheme of the Information Commissioner's Office (ICO) as set out below and incorporated all specific information requirements of the Police Reform and Social Responsibility Act 2011 and the Code of Recommended Practice for Local Authorities on Data Transparency 2011, thus providing compliance to all statutory requirements regarding the publication of information at the time of implementation.

- To review and update on a regular basis the information the authority makes available under this scheme.
- To produce a schedule of any fees charged for access to information which is made proactively available.
- To make this publication scheme available to the public.
- To publish any dataset held by the authority that has been requested, and any updated versions it holds, unless the authority is satisfied that it is not appropriate to do so; to publish the dataset, where reasonably practicable, in an electronic form that is capable of re-use; and, if any information in the dataset is a relevant copyright work and the public authority is the only owner, to make the information available for re-use under the terms of the Re-use of Public Sector Information Regulations 2015, if they apply, and otherwise under the terms of the Freedom of Information Act section 19. The term 'dataset' is defined in section 11(5) of the Freedom of Information Act. The term 'relevant copyright work' is defined in section 19(8) of that Act.
